

JOIN THE CAMPAIGN TO PROTECT ABORTION RIGHTS

November ballot measure will protect access to reproductive health care in California

The conservative Supreme Court is undermining the right to an abortion, which will result in states across the country banning access to safe, affordable reproductive care, creating insurmountable challenges in many communities.

We need to act now to ensure abortions remain safe and legal in California and that important health care decisions are left to a person and their health care provider with the backing of science and evidence-based medicine – not written by political agenda.

___ **YES!** Please list me/us as a public support of the ballot measure to protect abortion rights in California.
